February 1, 2022

Dear Friends-

On behalf of the City of Solon I wanted to wish you all Xin Nian Kuai Le. The lunar New Year starts on February 1 and I know it is a very special time of the year to gather with friends and loved ones. I hope and pray you have a wonderful Spring Festival filled with love, joy, health and prosperity.

2022 is the year of the Tiger which represents bravery, competitiveness, unpredictability and confidence. During these last two difficulty years of living our lives through the Covid pandemic, life has been unpredictable and we have shown bravery and confidence in continuing to live our lives and take care of our families and businesses.

May the New Year bring health, wealth and good fortune to all of you and our lives cross paths in person this year.
